## **Entity Information**

Rangiora Harness Racing Club Incorporated For the year ended 31 July 2021

'Who are we?', 'Why do we exist?'

## **Legal Name of Entity**

Rangiora Harness Racing Club Incorporated

## **Entity Type and Legal Basis**

Not for Profit Public Benefit Entity. Incorporated Society.

## **Incorporated Societies Number**

Registered Number 219596

## **Entity's Purpose or Mission**

The primary objective of the club is to promote, conduct and control harness racing in North Canterbury and is registered with Harness Racing New Zealand ("the code"), consistent with the Code's constitution. The Club is a recognized industry organisation in accordance with the Racing Act 2003.

### **Entity Structure**

Committee headed by the Club President.

The Club is primarily engaged in a service activity with focus on conducting and promoting race meetings consistent with existing racing rules and regulations. The Club's leadership and management team - along with a good number of volunteer members and staff - are involved in ensuring that race meetings are conducted as planned and to a level expected by participants, members and regulators alike.

## Main Sources of Entity's Cash and Resources

The Club's main source of revenue is industry funding from the Code which is used to meet the costs and expenses of the Club's race meetings. The terms and amount of industry funding are agreed by the Code and the Club at the beginning of each racing season based on planned race-meeting events and activities.

The Club also receives income from gate entry fees, grants, members subscriptions and individual race and overall race day sponsorship. During the race meetings the club sells goods including various race-related items.

## Main Methods Used by Entity to Raise Funds

Proceeds from the sale of other goods and services (including charges for use of the the Club's assets) are based on agreed price determined with reference to current market prices for such goods and services.

The Club also receives, grants, subsidies and donations from various sources including Club members and industry organisations (RITA, the Code and other Clubs).

## **Entity's Reliance on Volunteers and Donated Goods or Services**

The Club receives services in kind which are considered vital in its race-meeting events; and although these are highly appreciated, these are difficult to value and hence, not included in this Performance Report.

Services in kind come in the form of volunteers both during race meetings events and off-season. Volunteers (mostly members of the Club) are involved in the setup of race meeting events, various activities during the event to ensure orderly conduct of the race, and in the day-to-day upkeep and maintenance of the Club's premises.

Without these donated services, the Club would have required more funds to meet costs and expenses which would have potentially made the conduct of race meeting events even more challenging. On this basis, the Club highly values these donated goods and services and considers them a vital part of its operations.

#### Additional Information

As the Club is primarily involved in the conduct and promotion of race meetings - rather than the generation of profit - it is considered a not-for-profit entity for financial reporting purposes. Nonetheless, any profit generated provides the Club with more resources that make future operation more sustainable; these resources are held as cash reserves and available for use by the Club as the need arises.

The Club is party to an agreement with the Canterbury Jockey Club with respect to the operation of the Rangiora Raceway and is responsible for the part ownership and maintenance of the Rangiora Raceway. This is not a separate legal entity that the Club controls. The extent to which the operation is recognised by the Club is limited to its 5/12 share of the assets and its own costs spent on the use and maintenance of the assets.

## Statement of Service Performance

Rangiora Harness Racing Club Incorporated

For the year ended 31 July 2021

'What did we do?', 'When did we do it?'

## **Description of Entity's Outcomes**

The Club is licenced by Harness Racing NZ to conduct and promote harness racing at Rangiora Raceway.

RHRC were programmed for 9 race meetings during the season to 31/7/2021, all held at Rangiora Raceway. The Club was able to hold all meetings as the region remained at Covid Level 1. Last year only four meetings were held, with 6 meetings cancelled due to the COVID-19 pandemic. The Club's revenue and expenses this year were correspondingly higher.

To ensure that the club meets its goal, stakes money has to be built-up from various sources that consequently enables a more attractive race participation.

The Club's management has also been actively working with the code and the TAB to ensure that industry funding remains a steady source of operational funding for race meetings.

Our primary objective is to provide opportunities for Owners, Trainers and Drivers to participate, and entertainment and recreation for families and people of all ages. The emphasis at our main meetings is to provide activities and events which add to the racing itself and provide a fun day out for everyone.

The Club is also actively involved in the management of the Rangiora Racecourse in association with our co owners the Canterbury Jockey Club.

Fixed Assets are measured initially at cost which includes expenditure that is directly attributable to the acquisition of the asset. Subsequent to initial recognition, Land and Buildings and Improvements are measured at fair value. Plant and Equipment are measured at cost. Depreciation is recorded on all assets except for land. The Club performs an annual impairment test on its fixed assets. If the recoverable amount of an asset is determined to fall below its carrying amount, then the resulting difference is recognized as an impairment loss in the Statement of Financial Performance for that period.

Land and Buildings and Improvements are recorded at their rateable value issued by the Waimakariri District Council. The last date of valuation was 1st August 2019. The Club recognised a valuation gain of \$95,728 in the year ended 31 July 2020.

The sale of 5395m2 of Racecourse land to the Waimakariri District Council was completed in the year ended 31 July 2020, resulting in the Club recognising a gain on sale of \$162,694.
